

Australia

Australia skincare launch checklist

Pre-launch control list

- ☐ Use AICIS tools to confirm the product remains a cosmetic rather than a therapeutic good.
- ☐ Identify the Australian introducer and determine whether AICIS registration is required.
- ☐ Check every imported or manufactured ingredient against the AICIS Inventory and any listed conditions.
- ☐ Complete local label, product-safety and consumer-law reviews with the Australian partner.
- ☐ Retain ingredient, introduction-category and recordkeeping evidence for the required period.

Use this list as a project-control aid. It is not legal advice; confirm the final route, local party and submission timing with the relevant authority or qualified local advisor.
